

FREE GUIDE FROM SHIELDNEST

Pest Control Cost Worksheet

Estimate and compare pest control quotes line by line so you can tell a fair price from a padded one.

Know the pest, know the cost, and stay safe around kids and pets — then get matched, free, with licensed, certified pest control pros near you. You compare quotes and choose who to hire.

These are ranges, not quotes

Real pest control pricing depends on the pest, the size and condition of your property, how bad the problem is, and your area. Use these typical US ranges as a starting point — then get written quotes.

Typical ranges by treatment

Treatment	Typical range	Notes
One-time treatment	\$150–\$350	Single visit, one pest
Recurring plan	\$45–\$120 / visit	Quarterly or bi-monthly
Rodent control	\$200–\$600	Trapping, baiting, sealing
Termite treatment	\$500–\$2,500+	Inspection + treatment

Bed bug treatment

\$300–\$1,500+

Often more than one visit

Line items to line up

- Inspection fee (sometimes credited toward treatment)
- The treatment itself, by pest
- Products used and any follow-up visits
- Re-treatment terms and any guarantee
- One-time vs. recurring plan pricing

Questions that reveal the real price

- 1 What exactly is included in this number?
- 2 Are follow-up visits included or extra?
- 3 Is this a one-time price or a recurring plan?
- 4 What happens to the price if the pest comes back?
- 5 When is each payment due?

PEST TYPE	STANDARD TREATMENT	PREMIUM TREATMENT	QUARTERLY PLAN	MONTHLY PLAN
ANTS	\$120	\$180	\$240	\$360
SPIDERS	\$120	\$180	\$240	\$360
ROACHES	\$140	\$200	\$280	\$420
RODENTS	\$180	\$260	\$360	\$540
TERMITES	\$220	\$320	\$440	\$660
BED BUGS	\$200	\$300	\$420	\$630
FLEAS	\$140	\$200	\$280	\$420
SILVERFISH	\$120	\$180	\$240	\$360

SERVICE NOTES

- Prices are general estimates for residential properties.
- Actual cost may vary based on property size and severity.
- Quarterly plans provide 4 visits per year.
- Monthly plans provide ongoing protection.
- All treatments include inspection and professional application.

SMART TIP
Regular treatments help prevent infestations and save money over time.

Score each quote

For each company, mark whether every line above is included, excluded, or unclear. The most complete and honest quote — not the lowest — is usually the safest choice. See the full cost breakdown at shieldnest.com/costs.

Important

ShieldNest is a free matching service, not a pest control company or licensed pesticide applicator. We do not treat pests, apply pesticides, inspect properties, or give pest control, medical, or legal advice. Cost figures are typical ranges and estimates, not quotes or guarantees, and we do not guarantee eradication of any pest. Your real price depends on the pest, the size and condition of the property, how severe the infestation is, the plan, and your area. Always hire licensed, state-certified pest control companies, verify the license yourself, read every product label and follow all pesticide-safety directions around children, pets, and food, and confirm the price and plan in writing before any treatment.
